Growing forests for our future....

Summer Employment Opportunity

Forestry Technician

Forestry Technician Job Description: The Forestry Technician's primary duty will be variable radius plot cruising. The work is arduous in that the cruiser must cross-county hike and negotiate steep, brushy terrain to establish resource inventory sample plots.

Forestry Technicians may also help with marking, cone collecting or other forest management tasks as assigned.

Qualifications: Graduation from, current enrollment in or acceptance in a Forestry, Natural Resources, or related program of study is preferred.

Dates of Employment: Summer 2016

Base Location: Anderson, California

Equipment and Provisions: Equipment and training necessary to complete an assigned task will be provided by SPI, including company trucks. Employees must provide their own cruiser vest and boots.

Salary: Competitive with generous housing allowance for out of area employees

Please send cover letter and résumé to:
