

Richfield, California

How Can Richfield, California

Increase Your Turns?

It has a lot to do with our Richfield mill. You see we have five species of lumber available to you... all under one roof. Douglas Fir, Ponderosa/Sugar Pine, Incense Cedar, and of course Sierra Premium Hem Fir, both raw and primed, all in inventory. The advantages for mixing and matching your inventory to increase your turns is logical. More turns in inventory mean greater profits, especially when you can count on your stock's quality. For example, all Sierra Pacific stock is run through the most technologically advanced high speed molders for quality finishing. We can guarantee stand-alone quality because our raw materials come from our own sawmills and timberlands. Richfield, California... not a large town, but we make sure it is humming! See us soon for better profits and all your lumber product needs.
