

Moulding and Millwork

Sierra Pacific Industries is the nation's leading manufacturer of moulding and millwork.

SIERRA PACIFIC INDUSTRIES
Growing Forests For Our Future

Sierra Pacific's confidence in the future is solidly rooted in some of the finest forestlands in the world. All forestlands are managed by professional foresters who practice responsible stewardship providing long-term sustained yields of quality timber.

Solid and finger-jointed products include:

- Stiles, rails and jambs for the steel door industry
- Panels, stiles and rails for the wood door manufacturer
- Cut-to-length components used in the manufacturing of wood windows
 - Window frames, window sash parts, glazed sash and millwork
 - Traditional moulding and millwork for interior trim
 - Interior flat and split jambs
 - Exterior door frames

Call us for special requests.

Sierra Pacific offers standard and custom moulding and millwork .

Technology...

Sierra Pacific Industries is leading the way in technological advances. The latest computerized scanning equipment is utilized in our manufacturing process to assure the highest yields, least waste, and consistent high-quality products our customers expect.

Manufacturing...

Moulding and millwork are manufactured using the most progressive manufacturing techniques and experienced operator skill. Strict quality control procedures ensure consistent, high-quality products manufactured to customers' exact specifications while serving a variety of markets.

Distribution...

Sierra Pacific services moulding and millwork customers throughout the United States. Our central distribution center is located in Red Bluff, California. From this location, moulding and millwork are processed for on-time delivery to the nation's distributors, manufacturers, and retailers.
